

How to get your favorite pictures from Fairfax High School Band's Photobucket.com Account.

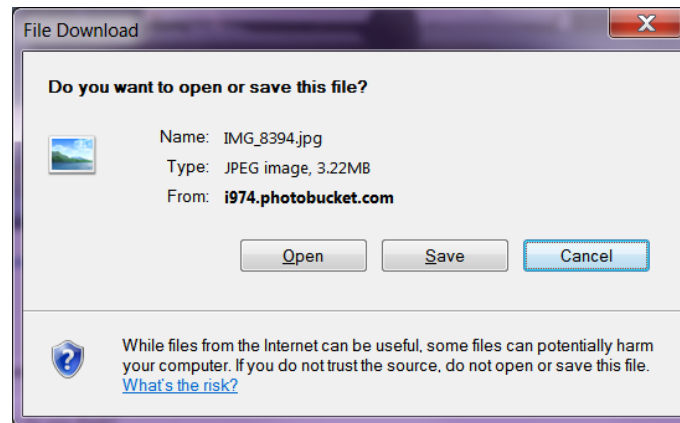

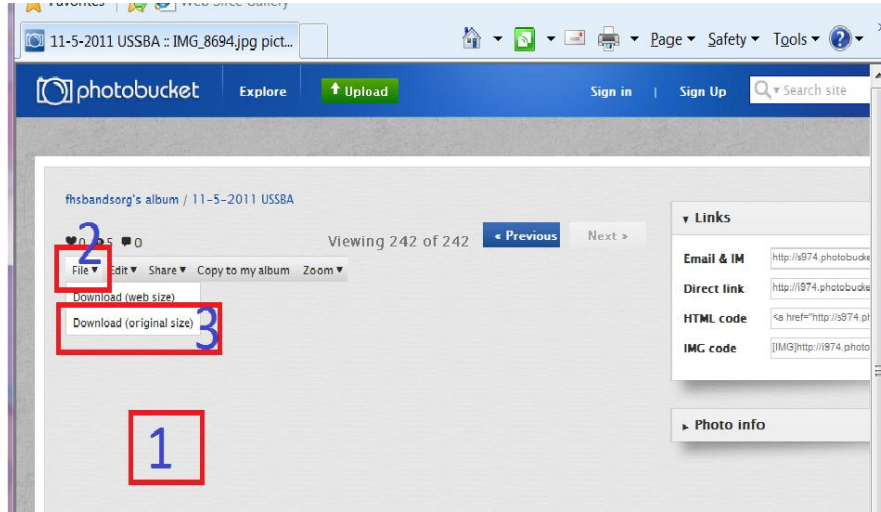

1. Open your WEB browser and type <http://s974.photobucket.com/profile/fhsbandsorg>
2. Click "ENTER" button.
3. Click "Recent Albums" or "View all public albums"
4. Select an album you would like to see.

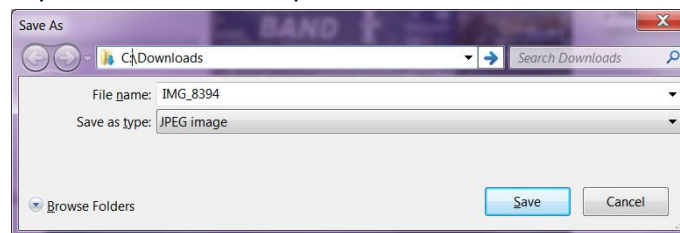

The uploaded photo files in Photobucket.com in 2011 are 8 Meg. Pixel photos, file size between 2 to 3 MB.

8 Mega Pixel resolutions of files should be good enough to print up to 11" by 17" photo size without any noticeable degradation. So, please select (Original Size) instead (WEB Size), if you plan to develop the files to pictures.

5. Move mouse cursor over the picture that you want to keep. (#1)
6. Menu Bar will appear on top left corner of the picture. (#2)
7. Move mouse cursor over to the "File" menu.
8. Click "Download (original size)" (#3).

9. Click "Save".
10. Select a folder where you want to save the photo file.

11. Click "Save".
12. Move the saved files to a USB thumb drive, and take to Costco or WalMart or any other photo processing shops for photo prints.

I hope you find some very memorable moments through the pictures I took. Special thanks to everyone who had to put up with my bothersome camera and blinding flashes!

You all have been awesome and wonderful models, in my humble opinion. Thank you!

It truly was another fantastic season! Congratulation!

Very truly yours,

Bo Baik
